

BEAM FOR SUPER CONTRIBUTION

Aurion integrates with clearing houses like Beam to simplify the way you meet payroll and super guarantee (SG) obligations and ensure fast payment processing times.

Make payroll super

Using clearing houses like Beam through Aurion means you don't need to make multiple transactions with third-party portals and file uploads. It doesn't matter how many super funds your employees use, payment calculation and distribution is handled for you within your Aurion solution.

Minimise payment mistakes

Your Aurion solution can automate and secure the transfer of data and approvals across the entire super payment process.

- + Employee self-service for super data collection
- + Upfront data validation before payment
- + Payment status tracking notifications
- + In-depth analysis reports

Keep the ATO happy

Aurion are specialists in Australian super and payroll processing, with full SuperStream and STP compliance, and security certifications for our internal operations and IT infrastructure. Now together with Beam, we can offer our customers even simpler superannuation processing and compliance.

Key benefits of using Beam in Aurion
